

Letter of the President

Dear Friend,

Over these years, through our various meetings, we have sensed your desire to review the documents that present our Salesian lay identity. As we know, the Statute and the Identity Document are not “static documents” – they serve as a precise guide for where the Confederation aims to go in responding to the challenges of today’s world. For this reason, before the 2027 Electoral Assembly, we are proposing a process of listening and collaboration to produce updated and more charismatic documents.
